32 bit (x86 based) **Microsoft Windows 2000**: The Windows Installer Services required by the FEFLOW or the WGEO installation is typically not up-to-date on Windows 2000 Systems. It is recommended upgrading the Windows Installer Service by installing the package [WindowsInstaller-KB893803-v2-x86.exe](#) (ca. 2.5 MB). Afterwards, the NETLM package can be installed.

Patches and installation files for older versions of NetLM
